

AKBAR JAMAL EL AFIF

Quality Assurance Engineer

Jakarta Selatan, Indonesia ☐ (62) 812 8334 6758 ☐ akbarjamalelafif@gmail.com ☐ /in/akbarjamalelafif/

SUMMARY

Quality Assurance Engineer with nearly 3 years of experience in testing web and mobile applications, including financial systems, CRM platforms, and digital wallet applications. Currently involved in multiple projects at Steradian Data Optima, handling end-to-end testing across different domains.

Proven ability to perform comprehensive testing, including API validation, SIT/UAT, and regression testing. Strong in identifying critical defects, validating business workflows, and ensuring data accuracy. Experienced in Agile environments and capable of managing testing activities independently.

EDUCATION

Universitas Putra Indonesia YPTK Padang - Padang, West sumatra

2017 - 2022

Bachelor of Information Systems.

Thesis: Inventory Information System for Incoming and Outgoing Goods Procurement of Ambon Furniture Using PHP Programming Language and MySQL Database.

EXPERIENCES

QA Engineer

Sep 2023 - Present

PT Steradian Data Optima - Indonesia

Responsible for ensuring the quality of multiple web and mobile applications across different domains, including banking systems, employee management systems, CRM platforms, and digital wallet applications.

QLOLA Cash Management (BRI)

Sep 2023 - Feb 2026

- Work in an **Agile Scrum environment** using **JIRA and Confluence** for sprint management, documentation, and collaboration.
- Design and maintain **test cases using Xray**.
- Perform testing on **legacy systems (Green Screen / IBM AS400)** as well as modern **banking web applications**, ensuring system stability and data accuracy.
- Execute **API testing using Postman and Swagger**, validating endpoint functionality, request and response payloads, status codes, and backend data consistency.
- Perform **System Integration Testing (SIT)** in testing environments.
- Execute **User Acceptance Testing (UAT)** collaboratively with Product Owners.
- Conduct **Deployment Testing** in pilot and production environments.
- Identify, record, prioritize, and track **defects** using defect management tools.
- Create and validate **SQL queries** to support developer testing and data verification.
- Document test results in compliance with **ISO/IEC 29119** software testing standards applied at BRI.
- Prepare and present **QA reports** to stakeholders.
- Develop **Standard Operating Procedures (SOPs)** to support production rollout.
- Deliver **product demonstrations of the QCash application** to BRI clients, explaining features, workflows, and system capabilities, and supporting client understanding and adoption.

Ops Portal (Employee Management System)

Feb 2023 - Present

- Tested employee management features (attendance, leave, employee data)
- Validated data integration and system synchronization
- Conducted SIT, UAT, and regression testing
- Created test cases and managed defects.

Tensora CRM

Feb 2023 - Present

- End-to-end testing for CRM modules (Account, Leads, Opportunities, etc.)
- Validated business flow and RBAC
- Conducted SIT, UAT, and regression testing
- Managed defect tracking

LaborQu (Mobile Digital Wallet)

Feb 2023 - Present

- End-to-end mobile testing (Android)
- Tested financial features (transfer, QRIS, top-up, bill payment)
- Validated transaction flow and balance accuracy
- Performed API and negative testing
- Ensured app stability and data consistency

QA Engineer Bootcamp Participant

Jul 2025 - Aug 2025

Test Aplikasi Kamu Batch 11 – Indonesia

- Gained strong fundamentals in **QA automation and Python programming**.
- Hands-on experience with **automation testing tools and frameworks**, including **Selenium**.
- Implemented **Selenium WebDriver with Python** using the **Page Object Model (POM)** and **data-driven testing** for end-to-end web UI automation.
- Developed **BDD automation frameworks** using **Gherkin and Python**.
- Used Selenium for web UI testing (E2E), including browser interactions, custom commands, and the Page Object Model (POM) with Python.
- Used **Git and GitHub** for version control, including repository management, branching, pull requests, and push/pull operations.

Business Analyst

Apr 2023 - Jun 2023

PT Pegadaian – Indonesia

- Conduct business analysis and requirement documentation for the internal cash management system (**Siskasti**).
- Elicit and validate user requirements through stakeholder discussions and system reviews.
- Identify and propose system improvements to enhance efficiency, data accuracy, and usability.
- Work closely with development and operational teams to ensure alignment between business needs and technical implementation.
- Support system testing and validation to ensure solution quality and business readiness.

Quality Assurance Manual - Intern

Sep 2020 - Des 2020

Arief Furniture – Indonesia

- Conducted manual testing on the inventory management application to ensure functionality and usability aligned with business requirements.
- Identified, reported, and tracked software defects, including performing root cause analysis and verifying fixes implemented by the development team.
- Designed and documented test cases and test results to support testing activities.
- Maintained clear and consistent communication with development teams to resolve issues effectively.
- Collaborated with business owners to understand system requirements and ensure business alignment throughout implementation.

HARD SKILLS		SOFT SKILLS	
• Programming Languages	: Javascript, Python	• Attention to Detail	• Analytical & Critical Thinking
• Framework	: Selenium	• Problem Solving	• Communication Skills
• Version Control	: Git, Github	• Team Collaboration	• Adaptability
• Database	: MySQL, PostgreSQL	• Communication	• Time Management
• API & Performance Testing	: Postman, Swagger, JMeter, Locust	• Ownership Mindset	
• Tools & Platforms	: IBM AS400, Docker, Kibana, Confluence, Jira		
• Standards & Methodologies	: Waterfall, Agile-Scrum, ISO/IEC 29119		

LANGUAGE		PROJECTS	
• Bahasa Indonesia	: Native Speaker	• QA Engineer	: Google Sheet
• English	: Working Proficiency
